As approved, restricts smoking in city-owned buildings and city government workplaces. Requires proprietors of other establishments to which the public is invited to post signs if more than 50 percent of public area is "smoking permitted."
As originally introduced, would restrict smoking in the public and private sector workplace, restaurants, retail stores and other public places (based on 1984 Gainesville ordinance).

2/12/85
Ocala City Council had on agenda discussion of proposal to restrict smoking in publicly-owned buildings. However, a group of senior citizens offered the Gainesville ordinance as its recommendation.
The Council President instructed the City Attorney to prepare a variety of draft ordinances so that the Council members could consider differing extents of restriction.

2/26/85
An ordinance based on Gainesville's was introduced to City Council.

3/12/85
At a public hearing, City Council amended out all reference to the private sector workplace. Council then approved an ordinance to restrict smoking in city-owned buildings and city offices.
In other places to which the public is invited, owners must post signs if more than 50 percent of the public area is "smoking permitted." The Council agreed to discuss the possibility of a separate restaurant ordinance at a later date.

7/23/85
Measure repealed by Ordinance #1764. In June 1985, state legislature enacted H 281, preempting local restrictions on smoking.

COMMITTEE :

Would restrict smoking in workplaces, restaurants, retail stores, health care facilities, publicly-owned buildings, public transit facilities and other public places. As drafted would apply to federal, state and county offices located within city.

Smoking areas may be designated in workplaces and other public places but must be separate and enclosed with adequate ventilation, and may not include restrooms, lobbies or other common areas where nonsmokers must pass through.

Restaurants seating 25 or more persons may set aside no more than 25 percent of capacity as smoking areas and must insure smoke-free air in nonsmoking areas.

Violation by smoker or proprietor subject to injunction and fine of $25 to $100 per day.

11/14/85
Councilman Miles requested City Attorney to draft smoking restriction ordinance based on Overland Park measure and recommended draft from Kansans for Nonsmokers Rights.

12/03/85
First reading (of two) tentatively scheduled, but City Attorney had not yet submitted draft ordinance.

[In 1984, Board of Health adopted voluntary program for restaurant nonsmoking sections.]

5/09/85
Board discussed possible regulation and/or ballot question, but took no action.

6/23/85
Board of Health agreed to survey other communities to formulate guidelines for regulation and enforcement. Board expects to adopt such a regulation to be effective January, 1986.

9/19/85
Board again discussed mandatory and voluntary restrictions, but took no action.

12/31/85
No further action taken, or expected in near future.

Public Health regulation would restrict smoking in workplace, restaurants, retail stores and other public places. In implementing, Department of Health is to "give preferential consideration to non-smokers."
As approved, restaurants meeting certain ventilation restrictions may be entirely smoking-permitted if they post appropriate signs at entrances; restaurants with a second level of ventilation may be 75 percent smoking; other restaurants may be no more than 50 percent smoking. (Earlier draft would have required 25 percent nonsmoking even with approved ventilation.)

As proposed in 1984, applied only to restaurants.

By 1980 public health ordinance (regulation), smoking is currently restricted in county government buildings, food stores, health, educational and cultural facilities.

4/10/84
Board of Health instructed Deputy Health Commissioner to determine whether an ordinance should be introduced and to report back within two months. A questionnaire will survey restaurants on current smoking policies.

STATUS : APPROVED
SPONSOR : COUNCILMAN RICHARD GREENE
COMMITTEE :

Would restrict smoking in workplaces and restaurants. Employers may voluntarily designate part or all of workplace as nonsmoking areas. Restaurants seating more than 100 persons would be required to designate at least two tables as nonsmoking or post a sign noting that nonsmoking section is not provided.

Would also prohibit smoking in such public places as elevators, restrooms, theaters, auditoriums and public meetings, which are already covered under state law.

As introduced, employees would have been allowed to designate immediate work areas as nonsmoking, and restaurants would have been required to set aside at least 25 percent of seating as nonsmoking.

6/18/85
